REASONS FOR ALLOWANCE

1. The Amendment filed April 5, 2004 has overcome the rejection set forth in the Office action sent December 30, 2003.

2. The following is an examiner's statement of reasons for allowance:

While the cited reference of Walker et al. (6,110,041) teaches a method and system for adapting gaming devices to playing preferences wherein a player inserts a tracking card into the slot machine for transmitting player identification data to central server, and central server transmits player preference data for that player to the slot machine for configuration; and the cited reference of Weiss (6,165,071) teaches a method and apparatus for gaming in a series of sessions wherein a player card carried thereon the current status of the player's performance during the course of previous sessions and being updated during subsequent sessions; Walker and/or Weiss, alone or in combination, does not anticipate or make obvious the applicant's claimed limitations of a system (as per claim 16)(or method as per claim 27) which comprises a master controller configured to control a game of chance played on a gaming machine by executing game code that uses gaming instructions generated by a processor on a smart card wherein the gaming instructions generated by the processor include commands and/or data compatible with the game code executed by the master gaming controller, in combination with other presented limitations.

Claims 16-40, therefore, are allowable.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Walker et al. (6,110,041) teaches a system and method for adapting gaming devices to playing preferences.

Weiss (6,165,071) teaches method and apparatus for gaming in a series of sessions.

Walker et al. (6,068,552) teaches gaming machine and method for providing a player the ability to modify at least one parameter of slot machine.

4. The drawings filed on November 22, 2000 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
